

QCC
RESOURCES

Engineering & Design

QCC Resources delivers engineering and design services for coal preparation and materials handling plants worldwide.

Our engineers and designers are supported with ongoing investment in training and the latest design technology including 3D AutoCAD, piping programs, ProSteel, Inventor and CADWORX.

Skills

- » Chemical/Process
- » Mechanical
- » Electrical
- » Structural
- » Civil
- » 3D and 2D Modelling

Services

- » Plant Optimisation
- » Process Design
- » Materials Handling
- » Logistics and Civil Infrastructure
- » Construction Support
- » Commissioning
- » Operations and Maintenance
- » Shut Down Planning
